Mobile and Ubiquitous Learning Shengquan Yu, Mohamed Ally, Avgoustos Tsinakos, 2017-11-16 This book explores the latest trends and technologies in the field of mobile and ubiquitous learning. It highlights best practices in technology-enhanced learning, and explores how new technologies such as mobile, augmented and wearable technologies are shaping instructional design strategies and the content curriculum development process. The book consists of approximately 20 chapters, written by international experts in the field of mobile and ubiquitous learning. The authors hail from Austria, Brazil, Canada, China, Greece, India, Malaysia, Mauritius, Saudi Arabia, Spain, Sweden, and the United Kingdom. Topics covered include but are not limited to: Use of social media in mobile learning, Contexts of learning and challenges of mobility: Designing for formal, informal, and non-formal learning, Mobile virtual reality: a promising technology to change the way we learn and teach, Mobile applications for encyclopedias, Ethical considerations in the incorporation of mobile and ubiquitous technologies into teaching and learning, Use of augmented reality in mobile learning for students with disabilities, Using wearable technology to support transfer of expertise, and Core technologies in mobile learning. Providing valuable insights on the future of education and the upcoming pedagogies that will be applied in traditional, distance and blended learning, the book offers educators and stakeholders essential guidance in making innovations for the new generations of learners in the 21st century.

Sustainable Approaches and Strategies for E-Waste Management and Utilization Rawani, A. M., Sahu, Mithilesh Kumar, Chakarabarti, Siddharth S., Singh, Ajit Kumar, 2023-03-27 In this contemporary world, urbanization, industrialization, and digitalization have drastically expanded to provide better living standards for human beings. The rate of change in technology is also very high, which introduces updated electronic devices very frequently in the market, which results in a huge garbage dump of e-waste. With the increase in the use of electronic devices, the e-waste generated over the globe is also increasing drastically, which becomes a barrier to sustainable development. Therefore, it is essential to formulate strategies and manage the e-waste generated from all sources to achieve sustainable goals. Sustainable Approaches and Strategies for E-Waste Management and Utilization assesses the activities involved in e-waste generation; identifies the potential impacts of e-waste on society, the economy, and the environment; and recommends appropriate e-waste handling

and disposal measures following the rules of regulatory bodies. Covering key topics such as sustainable development, waste recovery, and innovation, this reference work is ideal for industry professionals, environmental scientists, administrators, policymakers, researchers, academicians, scholars, instructors, and students.

Contemporary Issues and Development in the Global Halal Industry Siti Khadijah Ab. Manan, Fadilah Abd Rahman, Mardhiyyah Sahri, 2016-06-24 This book features more than 50 papers presented at the International Halal Conference 2014, which was held in Istanbul and organised by the Academy of Contemporary Islamic Studies of Universiti Teknologi MARA. It addresses the challenges facing Muslims involved in halal industries in meeting the increasing global demand. The papers cover topics such as halal food, halal pharmaceuticals, halal cosmetics and personal care, halal logistics, halal testing and analysis and ethics in the halal industry. Overall, the volume offers a comprehensive point of view on Islamic principles relating to the halal business, industry, culture, food, safety, finance and other aspects of life. The contributors include experts from various disciplines who apply a variety of scientific research methodologies. They present perspectives that range from the experimental to the philosophical. This volume will appeal to scholars at all levels of qualification and experience who seek a clearer understanding of important issues in the halal industry.

Supportive Conversations on Facebook Timelines Radzuwan Ab. Rashid, Kamariah Yunus, Zanirah Wahab, 2018-04-17 The emergence of social networking sites, like Facebook, and people's engagement with one another through them is a relatively under-researched area for discourse analysis. The content of the book revolves around Discourse Topic Management which is under the theme of Discourse Analysis. It is written to extend the very limited literature in the area of Discourse Topic, especially for the discourse which takes place on social networking sites. This study discusses the characteristics of topical actions employed by English language teachers and their Facebook Friends in managing supportive conversations which take place on Timelines. In addition to employing new strategies, enabled by the particular features of the site, the teachers and their Friends also creatively adapt the strategies used in face-to-face conversations to manage their online conversations, thus contributing to the emergence of unique characteristics of discourse topic management in the context of social networking sites. The book brings together the existing frameworks of Discourse Topic Management, which are previously applied in the context of face-to-face conversations, and synthesizes the frameworks for a more comprehensive model into examining the conversations which take place on Facebook Timelines. The novelty of this book lies in its synthesized framework, the recontextualization of the framework for online conversations and the theoretical extension based on the data analysis presented in each chapter. Since people's engagement with social networking sites is an emerging behaviour, this timely book provides insights into the phenomenon and also proposes a comprehensive analytical framework for other researchers interested in similar contexts.

IT Applications for Sustainable Living Muhamad Husaini Abu Bakar,

Intelligent Systems Modeling and Simulation II Samsul Ariffin Abdul Karim, 2022-10-12 This book develops a new system of modeling and simulations based on intelligence system. As we are directly moving from Third Industrial Revolution (IR3.0) to Fourth Industrial Revolution (IR4.0), there are many emergence techniques and algorithm that appear in many sciences and engineering branches. Nowadays, most industries are using IR4.0 in their product development as well as to refine their products. These include simulation on oil rig drilling, big data analytics on consumer analytics, fastest algorithm for large-scale numerical simulations and many more. These will save millions of dollar in the operating costs. Without any doubt, mathematics, statistics and computing are well blended to form an intelligent system for simulation and modeling. Motivated by this rapid development, in this book, a total of 41 chapters are contributed by the respective experts. The main scope of the book is to develop a new system of modeling and simulations based on machine learning, neural networks, efficient numerical algorithm and statistical methods. This book is highly suitable for postgraduate students, researchers as well as scientists that have interest in intelligent numerical modeling and simulations.

Biography of the Early Malay Doctors 1900-1957 Malaya and Singapore Faridah Abdul Rashid, 2012-11-21 I really applaud your efforts. It's really difficult to do a book like that.- WAZIR Thanks again for your immense work, my family and I are indeed extremely grateful.- AZLAN Your effort in writing about the early Muslim doctors is very commendable and would be good for present and future generations to read about.- TAHIR You are doing valuable work by filling in the gaps in our history. I wish more of our retirees would impart their memories to repositories of knowledge such as the USM.- TAWFIK

Digital Information and Communication Technology and Its Applications Hocine Cherifi, Jasni Mohamad Zain, Eyas El-Qawasmeh, 2011-06-14 This two-volume set CCIS 166 and 167 constitutes the refereed proceedings of the International Conference on Digital Information and Communication Technology and its Applications, DICTAP 2011, held in Dijon, France, in June 2010. The 128 revised full papers presented in both volumes were carefully reviewed and selected from 330 submissions. The papers are organized in topical sections on Web applications; image processing; visual interfaces and user experience; network security; ad hoc network; cloud computing; Data Compression; Software Engineering; Networking and Mobiles; Distributed and Parallel processing; social networks; ontology; algorithms; multimedia; e-learning; interactive environments and emergent technologies for e-learning; signal processing; information and data management.

Institutionalization of World-Class University in Global Competition Jung Cheol Shin, Barbara M. Kehm, 2012-11-27 Moving the academic debate on from its current focus on development to a more nuanced sociological perspective, this fresh research is a collaboration between academics in South Korea and Germany that assesses the factors shaping world-class universities as institutional social systems as well as national cultural treasures. The work explores in detail how WCUs have moved to a central position in policy circles, and how these often ambitious government policies on WCUs have been interpreted and adopted by university administrators and individual professors. The authors provide a wealth of empirical

data on universities, both world-class and aiming for WCU status, in a range of polities and continents. They compare strategies for developing WCUs in countries of the East and the West, both developing and developed. Nations featured in the statistical purview include nine countries (Germany, France, Japan, South Korea, China, Taiwan, Malaysia, Singapore and Hong Kong SAR). The volume goes further than merely taking a snapshot of the current situation, offering detailed and considered strategies and rationales for institutionalizing and developing WCUs, particularly in Asian countries where Confucian cultural influences accord education the highest priority.

SELECTED CONTEMPORARY ISSUES ON LAW, SOCIAL, AND POLITICS Baiq Wardhani, et al., 2023-04-26 This book once again shows the results of the ongoing collaboration between UniZSA, Malaysia and UNAIR, Indonesia, especially those involving Faculty of Social and Political Sciences of UNAIR and Faculty of Law and International Relations of UniZSA, each of which is led by the Department of International Relations. Furthermore, this book is also a reminder that scientific work can be disseminated in various forms other than on the mainstream platform. In addition, this book is an alternative source of learning for lecturers, students, and the public. For the higher education, this book can be a medium to strengthen academic networks and a means of communication for its authors.

LAW, POLITICS & SOCIETY: The Unravelling of Malaysia and Indonesia Potentiality Dr. Suyatno Ladiqi, Dr. Suparto Wijoyo, S.H., M.Hum.a, Aminuddin Mustaffa, DR. Prawitra Thalib, S.H., M.H., ACI Arb, 2021-11-09 Penerbit: Airlangga University Press ISBN: 9786024737740 This book is the fourth compilation as a regular joint publishing effort since 2017 between Sultan Zainal Abidin University (UniSZA), Terengganu, Malaysia, and Airlangga University (UNAIR), Surabaya, Indonesia. Filled by lecturers and students, this book is expected to strengthen the relationship between the two universities and further strengthen the Malaysia-Indonesia relationship.

Teaching and Learning in a Digital World Michael E. Auer, David Guralnick, Istvan Simonics, 2017-12-26 This book gathers the Proceedings of the 20th International Conference on Interactive Collaborative Learning (ICL2017), held in Budapest, Hungary on 27-29 September 2017. The authors are currently witnessing a significant transformation in the development of education. The impact of globalisation on all areas of human life, the exponential acceleration of technological developments and global markets, and the need for flexibility and agility are essential and challenging elements of this process that have to be tackled in general, but especially in engineering education. To face these current real-world challenges, higher education has to find innovative ways to quickly respond to them. Since its inception in 1998, this conference has been devoted to new approaches in learning with a focus on collaborative learning. Today the ICL conferences offer a forum for exchange concerning relevant trends and research results, and for sharing practical experience gained while developing and testing elements of new technologies and pedagogies in the learning context.

Contemporary Issues in Entrepreneurship and Innovative Technology Naeem Hayat,

Higher Education Finance and Islamic Endowments Nurul Adilah Hasbullah, Asmak Ab Rahman, 2023-11-09 Public debt pressures due to the global economic crisis in several countries have impacted higher education, compelling governments to curtail the funding of higher education institutions (HEIs). Various instruments have been proposed as a platform for the private sector to channel funding to HEIs. This book introduces readers to the issues surrounding the financing of HEIs, especially public universities, which are dependent on government budgets. It discusses the sources of funding for HEIs, focusing on philanthropic instruments through endowment and waqf funds. Since both forms of income are obtained via contributions from third parties, such as alumni, individuals, business corporations etc., it is essential that they are managed in such a way to ensure their sustainability and that their benefits can be accessed without interruption. It explains the theory of successful endowment and waqf at HEIs, namely appropriate investment planning, superior investment committees, highly skilled investment managers, alumni networks, diversity of income sources and effective fundraising. These elements have been studied empirically in this book through case studies of several selected Malaysian public universities. The book considers policy implications and offers recommendations of strategies that Universities can adopt, such as the appointment of fund managers. No specific guidelines currently exist for appointing fund managers to enable universities to invest in assets such as bonds, equities, and property. Therefore, the book encourages universities to grow the endowment and waqf funds through proper investment strategies executed by professional fund managers. The book contributes new knowledge to scholars, students and researchers, as well as informing university administrators how to collect, manage and invest funds from endowment and waqf.

Recent Advances and Applications in Blockchain Technology (UTeM Press) Mohd Fairuz Iskandar Othman, Nazrulazhar Bahaman, Mohd Zaki Mas'ud, 2021-11-10 This book brings together a collection of well-researched yet easy-to-digest content by expert authors within the field of Blockchain technology. Blockchain represents a technology that has the potential to contribute to various fields such as logistics and transportation, education, healthcare, and finance. Knowledge of blockchain technology, its recent advances, and applications will be an added advantage to fellow academicians, researchers, and individuals keen to learn more about this exciting new technology that represents one of the critical technologies fronting Industrial Revolution 4.0.

CMBEBIH 2021 Almir Badnjevic, Lejla Gurbeta Pokvić, 2021-05-31 This book presents cutting-edge research and developments in the field of medical and biological engineering. It gathers the proceedings of the International Conference on Medical and Biological Engineering, CMBEBIH 2021, held partly virtually, partly physically, on April 21-24, 2021, from and in Mostar, Bosnia and Herzegovina. Focusing on the goal to 'Stay Focused', contributions report on both basic and applied research in a wide range of related fields, such as biomedical signal processing, medical physics and imaging, biosensors and micro/nanotechnologies, biomaterials, biomechanics and robotics, cardiorespiratory, endocrine and neural

systems engineering. Novel models, methods and technologies for bio- and health informatics, as well as applications of machine learning and AI in health care, and advances in genetic engineering are also highlighted. All in all, this book provides academics and professionals with novel, practical solutions to solve the current problems in biomedical research and applications, and a source of inspiration for improving medicine and health care in the future.

Teaching and Research Methods for Islamic Economics and Finance Mohd Ma'Sum Billah, 2022-03-10 Methods and techniques adopted in teaching, training, learning, research, professional development, or capacity building are generally standardized across most traditional disciplines, particularly within developing countries. This is not the case, however, when it comes to the Islamic disciplines, and, in particular, in relation to the study of Islamic economics and finance, which is influenced by conventional standards and techniques. This is primarily due to the lack of availability of the requisite standards and mechanisms designed within the spirit of Maqsid al-Shari'ah. This book offers a unique resource and a comprehensive overview of the contemporary methods and smart techniques available for teaching, learning, and researching Islamic eco-finance, and it presents solutions to the challenges in implementing them. Further, the book gives deep insight into the most appropriate methodologies that could be employed empirically to explore, model, analyze, and evaluate Islamic finance theories and models, respectively. It also gives recommendations for improving learning, teaching, and research outcomes in Islamic eco-finance. The book also addresses how, in this advanced technological era, smart tools like artificial intelligence, machine learning, big data, Zoom, and the internet of things can be adapted to help equip students, researchers, and scholars with smart skills. The book will enable those studying Islamic economics and finance to grasp the appropriate tools for research and learning. Additionally, the Islamic economics and finance sector is growing at a significant rate and therefore requires the upskilling and capacity building of its human resources; thus, the book will also be highly beneficial for practitioners involved in the industry.

Handbook of Research on Inclusive and Innovative Architecture and the Built Environment Peng, Ng Foong, Sonet, Ungku Norani, 2023-06-19 There is an urgent need to emphasize inclusivity in architecture and the built environment. Innovative technologies within the field of architecture are being developed to enhance inclusivity in architectural approaches and development processes. It is essential to research inclusivity in architecture and the built environment toward holistic sustainable development. The Handbook of Research on Inclusive and Innovative Architecture and the Built Environment discusses inclusive and innovative approaches to providing socio-cultural value within architecture and the built environment. It focuses on issues of diversity, sustainability, resilient designs, and more. Further, the book expands the knowledge and awareness of architecture and the built environment towards inclusivity in design development and emerging advanced technology. Covering topics such as architectural challenges, global health, and urban morphology, this major reference work is an excellent resource for architects, government officials, urban planners, practitioners, students and

educators of higher education, researchers, and academicians.
